I Met Dr. Younger in December of 2016 and prior to him we had no real answers ! After a bunch of tests He gave me a classification on what I Had. At first my insurance company denied me but a few days later I received a call from him personally! My family and I had tears of joy!!!! I am feeling Great and I am Back To Work Full Time Out on the Fields! I never thought That Gary F. would ever be Back !!!!! We are so so Blessed That We Found Dr. Younger! My wife Michelle Is the one That research Him! I will never forget the time my wife looked him up on the Laptop During Christmas week late at night! Within a couples of hrs. He personally emailed my wife back,He said to Her I need to see you guys next week! I am so Grateful For My Family and all my Drs. and Friends! Just Remember that there is a God ! Please people Never Give Up!!!!

After 6 months of going to see various doctors without a clear diagnosis for our daughter, we were referred to Dr. Younger. Dr. Younger did the appropriate testing and was able to diagnose her very quickly and prescribe a treatment plan. Unfortunately, we had many battles with our insurance company over the approval of the medicine she needed to begin her healing process. Dr. Younger faithfully followed up with them again and again to present his case on the necessity of her medication. Finally after a LONG, HARD fought battle, Dr. Younger was able to get the approval from the insurance company! She has finally started her treatments and we are hopeful for her future recovery! During this process, the office staff was very friendly and accommodating to my questions and inquiries. We are thankful for his expertise and perseverance through this process.

Dr. Younger helped to save my son. Previously, we had taken my son to a prominent Boston neurologist, who only performed cursory tests, and could not determine the issues. Dr. Younger conducted extensive testing. He correctly diagnosed the issues and prescribed the needed medication. My son, after being treated by Dr. Younger, could finally go out into the sun and rain without pain. Previously, the sun had caused him to collapse. Raindrops felt like tiny daggers into his skin. The day my son could let the rain touch him without pain, he slowly twirled in it, and reveled in it, as if he was feeling it for the first time. It was a moment my husband and I will never forget. Dr. Younger succeeded where others could not. Dr. Younger gave my son his much of his life back, and for this we are forever grateful.

I saw Dr. Younger after my last Rheumatologist gave up on me (along with the last 9+ Rheumatologists). I had seen a number of neurologists who also did not know how to treat me. I have a very complicated case that has stumped numerous doctors. I then came across Dr. Younger and he was the first doctor that I have seen who went above and beyond to run additional tests and who was able to think outside of the box to help diagnose me. I am hopeful that he can help treat my complicated case. I would highly recommend Dr. Younger to anyone who has a case that no other doctors can figure out. Dr. Younger takes the time to explain everything to you and genuinely wants to find the solution to treat you. Thank you Dr. Younger!

Dr. Younger has been a life-saver for our adult son, who was mis-diagnosed by over 35 specialists throughout his childhood. Finding Dr. Younger has truly been the life-saver we've been searching for. He is brilliant, kind and compassionate, and although very busy with patients from all over the world, he will actually get on the phone with you to answer a question if he is free. He even called us back on a Saturday evening one time. This man dedicates his life to saving the most difficult autoimmune cases, taking on what other neurologists can't even begin to figure out. And the staff is excellent, the phone and all emails are promptly answered and they are always polite and considerate. We consider ourselves extremely lucky to have found Dr. Younger, and our son is now on the path to recovery. We highly recommend him!

Dr. Younger is an answer to prayer. An amazing and incredibly gifted doctor who came highly recommended. In fact I was told to go to no other neurologist but him. His expertise and extensive knowledge in the field of autoimmune neurological disorders is impressive. We were on a very long journey searching for answers to my daughter's very complex medical case with no answers in sight. Over a year of appointments with many doctors and specialists including three very scary visits to the emergency room and we still had no answers. In fact the doctors at the emergency room said there was nothing at all they could do to help us. They were at a loss for any explanation to the symptoms my daughter was having. They said "the blood work is fine" VERY frustrating ... until we were referred to Dr Younger by our newly found holistic doctor who knew there was something seriously wrong. We wondered if we would ever solve this mysterious medical puzzle until we met Dr. Younger. He was simply AMAZING! He listened..... intently, did a very thorough examination and took copious notes, followed up with a specific plan for my daughter in order to find answers. He is brilliant at what he does..... Diagnosing very complex medical conditions. I HIGHLY recommend Dr. Younger. His staff is wonderful as well....extremely professional, compassionate and responsive.

My wife was in and out of 3 hospitals over a 2 month period without any answers to what was wrong with her. We then luckily stumbled upon Dr. Younger who diagnosed her and put her on the write medical plan right away. Within 3 weeks my wife was on her way to a full recovery. We could have not done it without Dr. Younger and are so thankful to have him on our team. Dr. Younger cares about his patients and will literally do anything to make sure they are ok! Thank you Dr. for everything.

Dr. Younger is brilliant and caring. He is focused and organized. He knows everything about my chronic illness, and is the only doctor, in 4 years, who was able to get me the treatment I need. I will forever be grateful. I was admiring his framed Hippocratic Oath wall plaque because I wanted to get one for my son who is a doctor. Dr. Younger reached into to his desk and gave me a beautiful wood shellacked copy of the Hippocratic Oath. He had two and I was so touched that he so sweetly offered it to me. Need I say more? I travel across the country to see him. His office staff is excellent as well!

Dr. Younger is not only an exceptional doctor, but he also is an exceptional human being. He went the extra mile for my adolescent daughter who has been suffering with debilitating, complex chronic illness for two and a half years. After hitting many walls with other MDs, I am finally feeling hopeful about finding a path forward for her. We are forever grateful for Dr. Younger's incredible selflessness, expertise and guidance.

Dr. Younger practices the old fashion way slowly, methodically, and exacting. This experience endears me to NYU Langone Health where he is affiliated. After years of being misdiagnosed, I met with Dr. Younger, who was relentless in figuring out what was wrong. His course of treatment and dedication to my health has enabled me to live a pain and symptom free life. I am so grateful to Dr. Younger and I will always recommend him to any adult or parents of a child with neurological and autoimmune symptoms

After 5 1/2 years of being mis diagnosed and doctors telling me that they couldn't figure out what was wrong, I thankfully found Dr. Younger. He is an incredible diagnostician, and has given me so much hope, a definitive diagnosis, and treatment options. He also is incredibly sincere, kind, respectful, and sincerely cares about getting to the bottom of a condition and treating it. I am so happy that I found him. My mom also has medical issues and was so impressed with Dr. Younger that she made an appointment to see him as well. We are so thankful that we found him!!!

I have been seeing doctor Younger for almost 30 years now. I had followed him since he was at Columbia Presbyterian/Columbia University Medical. He is the best! He's very knowledgeable, thorough, patient, compassionate, respectful, personal and professional. He's laser focused and really listens to my complaints (where/when other doctors may dismiss) and I always feel that he cares. I have several autoimmune problems and previously was not properly diagnosed. You need to have proper diagnoses to get proper care, medicines, and/or treatment. He will champion to get you your entitled insurance coverage. It's so important in neuropathy that you get the right diagnoses and treatment. Otherwise, you may get worse and could be too late. I'm so grateful and lucky to have found Dr. Younger. He's also up to date with research. He's very dedicated. I truly don't know how he does it. He also teaches, does research, and writes medical related articles/books.

My 16 year old son was suffering from intense 24/7 nerve pain in his foot. The pain became so bad that he was unable to walk. We went from doctor to doctor for months until we were recommended to Dr. Younger. He saw us immediately and carried out testing and sent us down the right path. My son is now almost pain-free and has resumed a normal teenage life.

Dr. Younger and his staff are amazing! I recently switched neurologists and was glad I did. Dr. Younger is extremely knowledgeable and thorough and determined to get to a diagnosis. He doesn't waste time in ordering tests and, in my case, has uncovered a significant issue that was missed by two other neurologists. His staff is also the best staff I have ever encountered at any physician's office! They handle everything with the insurance company and appointments and immediately inform you when test results are available. They also answer the phone directly compared to other physicians' offices today where you first are forced to talk to an outsourced service even when the office is open. With Dr. Younger, I finally feel confident that we will get to the bottom of my neurological disorder and confirm a diagnosis. i wish I had gone to him two years ago when my issue first started - but I'm grateful I found him now!

It's hard to find brilliance, compassion, and dedication in a doctor these days, but we did just when we landed in the office of Dr. Younger. We traveled many states to see him - well worth the effort and expense to finally have an answer to my son's years of misdiagnosis by numerous midwestern docs. You get the feeling Dr. Younger has seen it all and wastes no time testing and treating. He keeps current on medical research and did not dismiss our concerns. His office staff are equally amazing in keeping a very busy patient load informed and organized. Did I mention this guy is brilliant??
